thermo scientific

On the leading edge of clinical laboratory excellence

Thermo Scientific CEDIA and DRI Drugs of Abuse Immunoassays

ThermoFisher SCIENTIFIC

Thermo Scientific
Drugs of Abuse Screening

We have the most extensive menu of drugs of abuse immunoassays in the industry—and our menu keeps growing. Our experience in drugs of abuse testing allows us to anticipate new drug screening challenges and have leading edge solutions available when needed. Our multiple technology product platforms provide an important advantage of integrating both Thermo Scientific™ CEDIA® and/or DRI™ technologies into your testing program.

CEDIA Drugs of Abuse

The scope of drugs of abuse testing is expanding rapidly. Our CEDIA assays continue to meet the challenge. Optimized for most analyzers, CEDIA immunoassays are valued worldwide for their accuracy, precision, lot-to-lot dependability and stable shelf life. We offer the most extensive menu for drugs of abuse testing. And we are continuing to develop new assays to respond to ever-emerging drug screening needs.

DRI Drugs of Abuse

Our DRI products are at the leading edge of a new generation of testing solutions that offer high analytical accuracy while eliminating time-consuming steps in reagent preparation. These liquid, ready-to-use assays have been field-tested on a wide range of analyzers. They are enthusiastically accepted in laboratories where cost control and optimal productivity are key issues.

CEDIA and DRI Drugs of Abuse Immunoassays offer:

- Largest menu of tests available
- Qualitative or Semi-quantitative options for results
- Excellent correlation to GC/MS
- Applications for an array of clinical chemistry analyzers
- Variety of calibrators and multiconstituent control sets
