UC-600

UV Laser Cassette Printer

● Clear Printing ● Smart Software ● High Throughput ● User-friendly

The **CITOTEST UC-600 UV Laser Printer** offers fast, cost-effective, non-contact laser marking. It provides clear, scratch-resistant characters on universal cassettes that withstand various solutions.

With high **precision**, **reliability**, and **simple** operation, it boosts productivity in a compact design. High-resolution printing ensures readable barcodes and text, while enhanced connectivity and real-time monitoring optimize lab workflows. Energy-efficient and low-maintenance, the UC-600 is ideal for histology, pathology, and more, revolutionizing sample identification and marking.

Specifications

Printing technology	Non-contact UV laser technology
Printing speed	2.5-4 seconds/cassette
Printing resolution	2500 dpi
Cassette type	Without lid, with lid attached
Cassette angle	Both 35° and 45°
Filter	Built-in air purification system (Carbon/HEPA)
Computer software	Windows 7,10,11,XP
Compatible system	Open to connect to HIS/LIS systems
Screen	10 inch LED touch screen
Power	100-240 V AC, 50/60 Hz, 300W
Load capacity	6 hoppers, up to 600 cassettes
Output capacity	Detachable collection tray max capacity: 119 cassettes
Dimensions (L*W*H)	486mm*313mm*497mm
Net weight	37 kg
Status light	✓
Built-in barcode scanner	✓
Support color-setting print	✓
